#### <u>MEMORANDUM</u>

TO: Administration, Budget, and Finance Committee

THROUGH: Brett J. Cyphers, Executive Director

Guy Gowens, Chief of Staff

FROM: Wendy Dugan, Division of Administration Director

DATE: March 29, 2017

SUBJECT: Consideration of Resolution No. 819 Amending the Fiscal Year

2016-2017 Budget - Amendments No. 1 through 8

#### **Recommendation**

Staff recommends that the Governing Board adopt Resolution No. 819 amending the Fiscal Year 2016-2017 budget and allow staff to realign revenues and reserves to maintain the proper balance in each fund.

#### Background

These amendments realign budget within and across programs, funds, projects, and categories. Amendments 1 through 7 involve budgeting unanticipated revenue. Per s. 373.536(4)(c), F.S., they were submitted to the Executive Office of the Governor (EOG) for approval on February 15, 2017 and approved by EOG on March 2, 2017. While each of these would have resulted in an increase to the District's total budget, offsetting decreases were incorporated so as not to carry forward any unspent budget unnecessarily into the FY 2017-18 Tentative Budget request. Amendment 8 consists of transfers within existing expense and revenue budget.

Below are explanations for each of the eight amendments:

- 1. \$31,900 in budget funded by the Arbor Day Foundation to purchase and plant 220,000 longleaf trees in the Econfina Creek Water Management Area to support the District's longleaf pine restoration project.
- 2. \$6,500 in budget funded by The Longleaf Alliance to be applied toward the purchase of a utility terrain vehicle to support the District's prescribed fire program and other restoration and land management activities on District lands.

- 3. \$66,000 in budget funded with Environmental Resource Permit program fund balance reserves to cover incurred and estimated expenses relating to a petition for a formal administrative hearing.
- 4. \$250,083 in budget funded through a Florida Department of Environmental Protection (DEP) agreement for the District to be reimbursed for hydrologic and water quality monitoring activities of Wakulla Springs, St. Marks River Rise, Econfina Creek Springs, and Jackson Blue Spring.
- 5. \$35,000 in budget funded through a DEP agreement for the District to be reimbursed for work relating to restoration at Cotton Landing on Holmes Creek and Devils Hole Spring.
- 6. \$462,017 in budget funded through a DEP agreement for the District to be reimbursed for the acquisition of a conservation easement for property located directly south of Jackson Blue Spring.
- 7. \$13,964 in budget funded through a DEP agreement for the District to be reimbursed for support services relating to the Apalachicola-Chattahoochee-Flint River litigation.
- 8. Transfers for the following:
  - a. \$467,603 in Activity 130 Technical Assistance to move Federal Emergency Management Agency (FEMA) budget from one project to multiple new projects (this was determined after task orders were finalized for the year).
  - b. \$240,979 in Activity 130 Technical Assistance to move FEMA budget between ongoing projects, based on prioritizing updates to Risk Mapping, Assessment and Planning business plans and completing the building footprint within the special flood hazard areas.
  - c. \$75,000 in Activity 112 Minimum Flows and Minimum Water Levels to move budget between projects to cover increased costs for well construction and testing in coastal Region II.
  - d. \$64,670 in Activity 230 Surface Water Projects to move mitigation budget between projects to address costs mainly for the propagation and planting of native sandhill species at Sand Hill Lakes Mitigation Bank, wiregrass and toothache grass plants for Lafayette Creek In-Lieu Fee (ILF) site, and herbicide and an access gate at Dutex ILF site.
  - e. \$56,096 in the Bureau of Information Technology to ensure budget is allocated the same way expenses are charged against projects and accounts.
  - f. \$8,300 in the Division of Regulatory Services to cover property appraisal costs for the valuation of Environmental Resource Permit conservation easements.

- g. \$2,540 in Activity 113 Other Water Resources Planning to move salary and benefit budget from one project to another to accurately reflect where staff time is being charged.
- h. \$125 in Activity 120 Research, Data Collection, Analysis and Monitoring to move budget from fuel to legal for review of a DEP contract amendment.

Additionally, the District will redirect the use of \$300,000 of the \$8,985,183 in fund balance budgeted for previously awarded water supply development grants (WSDGs) to the newly awarded WSDGs approved by the Governing Board in November 2016. Due to cost savings realized or extensions granted to previously awarded WSDGs, existing budget is available to move forward with the newly awarded WSDGs sooner than initially planned.

Summary of Fund Impact to Expense Budget:

<b>Fund Source</b>	<u>Increase</u>	<b>Decrease</b>	<b>Impact</b>
General Fund	250,083	(12,094)	237,989
Land Acquisition Fund	35,000	0	35,000
Projects Fund	802,846	(1,102,923)	(300,077)
Lands Management Fund	8,355	0	8,355
Regulation Fund	96,592	(100,673)	(4,081)
Mitigation Fund	87,484	(64,670)	22,814
	1,280,360	(1,280,360)	0

#### **RESOLUTION NO. 819**

#### NORTHWEST FLORIDA WATER MANAGEMENT DISTRICT AMENDING THE FISCAL YEAR 2016-2017 BUDGET

**WHEREAS**, chapters 200 and 373, Florida Statutes, require the Governing Board of the Northwest Florida Water Management District (District) to adopt a final budget for each fiscal year; and

**WHEREAS,** by Resolution No. 817, after a public hearing on September 22, 2016, the Governing Board of the District adopted a final budget for the District covering its proposed operations and other requirements for the ensuing fiscal year, beginning October 1, 2016 through September 30, 2017; and

**WHEREAS**, in accordance with section 189.016(7), Florida Statutes, the District will post the adopted amendment on its official website within five days after its adoption; and

**WHEREAS**, a budget amendment involves an action that transfers, increases, or decreases to total appropriated Fund amounts in the budget; and

**WHEREAS**, pursuant to section 120.525, Florida Statutes, the District has provided notice of its intention to amend the Budget in the published notification of the Governing Board meeting at which the amendment will be considered; and

**NOW THEREFORE BE IT RESOLVED** by the Governing Board of the Northwest Florida Water Management District, that:

The Budget is hereby amended as summarized in the memorandum dated March 29, 2017, requesting Amendments No. 1 through No. 8 to the Fiscal Year 2016-2017 budget. These amendments recognize new revenue, the use of reserves, and reallocation of budget authority across programs, funds, projects, and budget categories to properly reflect activities performed and accurately assign actual costs with no increase to the total District budget.

PASSED AND ADOPTED this 13th day of April, 2017, A.D.

#### <u>MEMORANDUM</u>

TO: Administration, Budget, and Finance Committee

THROUGH: Brett J. Cyphers, Executive Director

Guy Gowens, Chief of Staff

FROM: Wendy Dugan, Director

Division of Administration

DATE: March 29, 2017

SUBJECT: Consideration of Resolution No. 820 Committing Fund Balances

for the Fiscal Year Ending September 30, 2016, as Required By GASB

Statement No. 54

#### Recommendation

Staff recommends the Governing Board adopt Resolution No. 820 to commit fund balances for Fiscal Year 2015-2016 as follows:

- Commit \$9,243,955 from the General Fund balance and \$1,034,056 from the Land Management Fund for Water Supply Development Assistance Grants.
- Commit \$4,050,197, the remaining total ending fund balance in the Lands Management Fund, for land management of District-owned lands.
- Commit \$3,299,570 from the General Fund balance for an Economic Stabilization Fund.
- Commit \$433,728, the total ending fund balance in the Capital Improvement & Land Acquisition Fund, for land acquisition and capital construction and improvement on District-owned lands.

#### **Background**

Beginning with the Fiscal Year 2010-2011 financial statements, the District adopted the Governmental Accounting Standards Board (GASB) Statement No. 54 (GASB 54), *Fund Balance Reporting and Governmental Fund Type Definitions*. GASB 54 establishes classifications to which government entities report their fund balances.

Under GASB 54, the Board is required to designate *committed* fund balances prior to September 30 each year. Since the District's fiscal year ends on this date, and outstanding revenues and expenditures have not yet been recorded, the Board adopted Resolution No. 815 on September 6, 2016, that specified estimated fund balance amounts as *committed*. As the District's financial statements ending September 30, 2016, are being finalized, actual cash balances have been determined. Therefore, Resolution No. 820 is the update to Resolution No. 815 and specifies actual cash balance amounts as *committed*.

Fund balances are reported under a hierarchy of five classifications:

- *Non-spendable* Represents assets that are nonliquid (such as inventory) or legally or contractually required to be maintained intact (such as the principal amount of an endowment).
- Restricted When constraints are placed on the use of resources for a specific purpose by enabling legislation (legally enforceable), external parties or constitutional provisions.
- *Committed* When constraints are created by the governing body on how it will spend its resources. These are enacted via legislation or resolution by the Board and are in place as of the end of the fiscal period. The restraints remain binding until rescinded or changed by the same method the constraints were created.
- Assigned Designation of amounts by either the governing body or staff (if authorized) to be used for a specific purpose narrower than the purpose of the fund. Only used for General Fund reserves.
- *Unassigned* The excess of total ending fund balance not otherwise restricted. Only the General Fund has an unassigned category since money remaining in any other fund is automatically designated or assigned to the purpose of the fund.

The District accounts for all financial resources through a General Fund, the District's primary operating fund, four Special Revenue Funds, and a Capital Projects Fund used to account for revenue sources that are limited to expenditures for specific purposes. Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are *restricted* or *committed* to expenditures for specific purposes other than debt service or capital projects. If the balance of a Special Revenue Fund is not formally restricted or committed by fiscal year end, then it must be reported as part of the General Fund for year-end audited financial statement purposes. A Capital Projects Fund is used to account for and report financial resources that are *restricted*, *committed*, or *assigned* to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Special Revenue Funds include these four funds:

• Regulation Fund - Provides for all regulatory permitting, licensing, and enforcement activities including the Environment Resource Permitting Program, which is statutorily required to be funded by the State. (Fund balance is *restricted*.)

### Special Projects Fund –

- O Accounts for all resource management projects and activities funded through dedicated revenue sources from grants and contracts with state, federal or local government entities, or water utility authorities. Revenues have been provided from the Florida Department of Transportation (DOT), Florida Department of Environmental Protection (DEP), Federal Emergency Management Agency (FEMA), Land Acquisition Trust Fund (LATF), and local government sources.
- Accounts for revenue and expenditure of state and local funds legally restricted for restoration and preservation of surface waters under the Surface Water Improvement and Management (SWIM) Act. Revenues have been primarily provided by State appropriation from the Ecosystem Management Trust Fund and LATF.
- Lands Management Fund Accounts for activities associated with the management, improvement, and maintenance of District-owned lands. State appropriations from the Water Management Lands Trust Fund (terminated in FY 2015-2016) have historically provided the primary funding source for the District's land management activities. Revenues have mainly included timber sales and the LATF.
- Mitigation Fund Accounts for all District mitigation projects and activities funded primarily through the DOT. As part of their surface water management programs, the districts administer the DOT stormwater management program. Expenditures include land acquisitions, restorations, monitoring, and other water resource related activities. (Fund balance is restricted.)

#### Capital Projects Funds include this one fund:

 Capital Improvement & Land Acquisition Fund - Accounts for the acquisition of fixed assets and construction of major capital projects. The District uses the Capital Improvement & Land Acquisition Fund for all land acquisitions and capital construction and improvements.

Phone: (850) 539-5999 • Fax: (850) 539-2777

#### **RESOLUTION NO. 820**

#### COMMITTING FUND BALANCE RESERVES FOR FISCAL YEAR 2015-2016 AS REQUIRED BY GASB Statement No. 54

**WHEREAS**, the 2015-2016 fiscal year of the Northwest Florida Water Management District extends from October 1, 2015, through September 30, 2016; and

**WHEREAS**, the Governmental Accounting Standards Board (GASB) has adopted Statement No. 54 (GASB 54), a standard for governmental fund balance reporting and governmental fund type definitions that became effective in governmental fiscal years starting after June 15, 2010; and

**WHEREAS**, the Northwest Florida Water Management District implemented GASB 54 requirements, to apply to its financial statements beginning with the October 1, 2010, through September 30, 2011 fiscal year and prior to the end of each fiscal year thereafter; and

**WHEREAS**, the Northwest Florida Water Management District implemented a fund balance policy beginning in Fiscal Year 2010-2011, amended in Fiscal Year 2011-2012, which follows:

Fund balance measures the net financial resources available to finance expenditures of future periods.

The District's General Fund Balance will be Committed and Assigned to provide the District with sufficient working capital and a margin of safety to address unanticipated needs and emergencies without borrowing. The General Fund Balance may only be appropriated, by the Governing Board, by Resolution adopting a budget or amendment to the Adopted Budget.

Fund Balances of the District may be committed for a specific source by Resolution of the Governing Board. Amendments or modifications of the committed fund balance must also be approved by the Governing Board by rescinding the Resolution or adopting a new Resolution.

When it is appropriate for fund balances to be assigned, the Board will assign funds or delegate authority to the Executive Director.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

**NOW THEREFORE BE IT RESOLVED**, by the Governing Board of the Northwest Florida Water Management District that fund balances will be committed for Fiscal Year 2015-2016 as follows:

GEORGE ROBERTS Chair Panama City

JERRY PATE Vice Chair Pensacola JOHN W. ALTER Secretary-Treasurer Malone GUS ANDREWS DeFuniak Springs

#### MEMORANDUM

TO: Administration, Budget, and Finance Committee

THROUGH: Brett J. Cyphers, Executive Director

Guy Gowens, Chief of Staff

FROM: Wendy Dugan, Division of Administration Director

DATE: March 29, 2017

SUBJECT: Information Item - Overview of Payment in Lieu of Taxes for 2016

The District began making Payment in Lieu of Taxes (PILT) payments in 1992 and has continued to make these payments annually since that time. Including calendar year 2016, the District will have paid \$1,618,274.49 to qualifying counties since 1992.

Chapter 373.59, Florida Statutes, requires the District to make PILT payments annually on District land purchases to qualifying counties. These payments reflect the ad valorem tax losses incurred as a result of these purchases. As outlined in s. 373.59(2)(a), F.S., a county qualifies if its population is 150,000 people or fewer.

Counties that currently qualify include those listed below along with their respective payment for the 2016 calendar year. These are the same counties and amounts paid in 2015.

<b>County</b>	PILT Amount for 2016
Calhoun	\$ 5,828.71
Holmes	\$ 1,997.13
Jackson	\$ 9,281.89
Liberty	\$ 7,533.05
Walton	\$ 19,346.24
Washington	\$ 41,703.25
TOTAL	\$ 85,690.27

Guy Gowens, Chief of Staff

FROM: Lennie Zeiler, Director, Division of Asset Management

DATE: March 29, 2017

SUBJECT: Consideration of Request for Authorization to Declare and Dispose of Surplus

**Property** 

#### Recommendation

Staff recommends the Governing Board approve to declare the property items as surplus, authorize staff to dispose of the items in accordance with established procedures, and remove them from the District's property records.

#### **Background**

As inventory wears out, breaks, becomes obsolete or has no further value to the District, staff determines whether it is fiscally prudent to spend funds to place the items back in service or dispose of them. Office equipment and furniture listed in Table 1 have been deemed surplus and ready for disposal, due to: (1) poor or scrap condition; (2) technology that is outdated and no longer compatible with the District's systems; and/or (3) being of no further use to the District.

In addition to the office equipment and furniture, staff has also determined that the 2007 JD Gator 4x4 utility task vehicle (UTV) in Table 2 should be declared as surplus. This Gator UTV has been used by the Bureau of Land Management Operations for field work, is worn out, and in need of extensive repairs. It has recently been replaced with a Kubota sport utility vehicle.

#### <u>MEMORANDUM</u>

TO: Governing Board

THROUGH: Brett Cyphers, Executive Director

Guy Gowens, Chief of Staff

Lennie Zeiler, Director, Division of Asset Management

FROM: Bill Hunkapiller, Chief

Information Technology Bureau

DATE: March 15, 2017

SUBJECT: IT Spending Plan Update

#### Recommendation

Staff recommends the Governing Board approve the procurement of internet access, telephone circuits, and security services for District headquarters, field offices, and partner water management districts from the Department of Management Services (SUNCOM) in the amount not to exceed \$145,000 for FY 2016-2017 (an increase of \$65,000).

#### **Background**

SUNCOM is established within the Department of Management Services (DMS) as the state's enterprise telecommunications system, pursuant to Section 282.703, Florida Statutes. DMS competitively procures these services to provide internet access, telephone circuits, and security services for District headquarters, field offices, and connections to partner water management districts.

Over the last several months upgrades were made to the circuits in Crestview, Milton and Econfina. Bandwidth doubled in these locations to support bandwidth requirements for Disaster Recovery, connectivity to cloud based services such as Office 365 Email (enhances remote access by staff) as well as for the lands timber management database. In addition, AST billing has historically been delayed, not reflecting the cost of these new upgrade for three to four months. For example, Econfina was upgraded in May of 2016, but billing was not reflected until October of the same year. At this time, projected costs for all upgrades are now identified.

#### MEMORANDUM

TO: Asset Management Committee

THROUGH: Brett J. Cyphers, Executive Director

Guy Gowens, Chief of Staff

FROM: Lennie Zeiler, Director

Division of Asset Management

DATE: March 29, 2017

SUBJECT: Consideration of 17B-010; 2017 Sale of Toothache Grass Seed

#### **Recommendation:**

Staff recommends the Governing Board authorize the Executive Director to execute an agreement with Roundstone Native Seed, LLC for \$2,250 for the sale of 15 pounds of cleaned and tested toothache grass seed.

### **Background:**

On February 16, 2017, the District issued Invitation to Bid 17B-010 for the sale of 15 pounds of cleaned and tested toothache grass seed and 95 pounds of bulk uncleaned toothache grass seed. The District received one bid by the 2:30 p.m. deadline on March 16, 2017, from Roundstone Native Seed, LLC. Their bid amount is listed in the chart below.

<b>Cleaned and Tested</b>	Bulk Uncleaned				
\$2,250.00 or \$150 per pound	\$1,140.00 or \$12 per pound				

A sealed minimum bid was established by District staff for this bid. The minimum acceptable bid amount for the cleaned and tested seed was \$100 per pound and the minimum acceptable bid amount for the bulk uncleaned seed was \$10 per pound. The bid submitted by Roundstone Native Seed, LLC meets the District's sealed minimum bid for each. Staff is recommending the District sell only the cleaned and tested toothache grass seed and retain the bulk uncleaned seed for use on District mitigation lands.

LZ/cb

#### <u>MEMORANDUM</u>

TO: Asset Management Committee

THROUGH: Brett Cyphers, Executive Director

Guy Gowens, Chief of Staff

Lennie Zeiler, Director, Division of Asset Management

FROM: Tyler L. Macmillan, Chief, Bureau of Land Management Operations

DATE: March 29, 2017

SUBJECT: Consideration of Invitation to Bid 17B-011; 2017 Devils Swamp Sand Pine

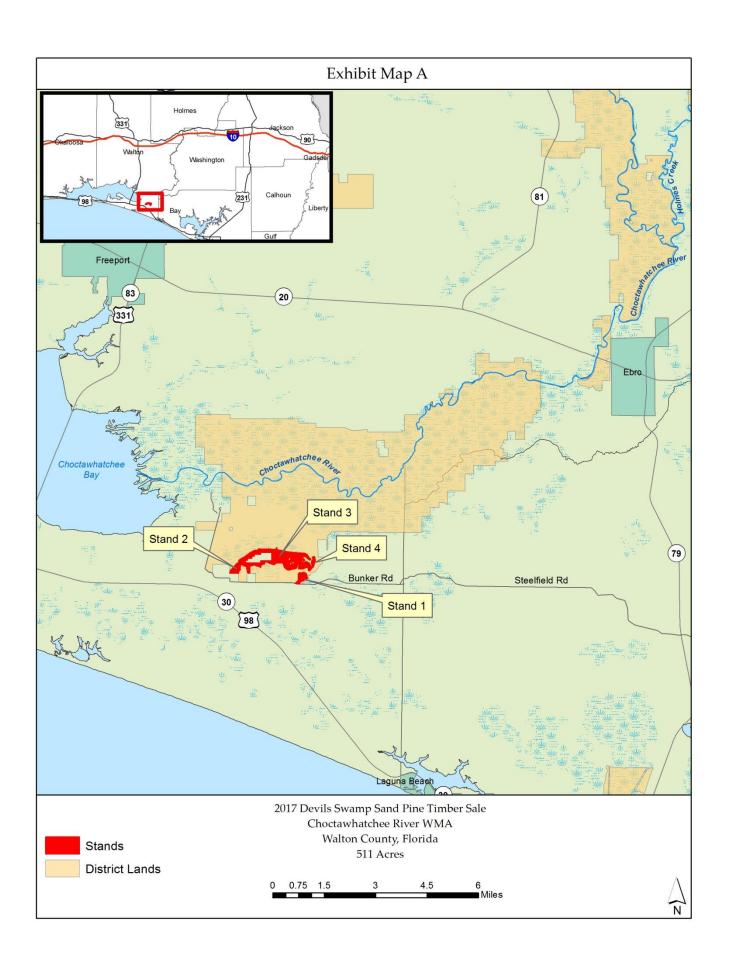

Timber Sale

On March 15, 2017, the District posted Invitation to Bid No. 17B-011 for the 2017 Devils Swamp Sand Pine Timber Sale on the State's Vendor Bid System and the District's website, and notices were sent to companies that have previously expressed an interest in District timber sales.

This timber sale will result in the clear-cut harvest of an estimated 27,736 tons of sand pine pulpwood timber product from four stands totaling 511 acres in Walton County, as described below. The stands are also delineated on the attached Exhibit Map A.

Stand				
No.	County	Acres	Pine Species	Age
1	Walton	42	Sand Pine	24
2	Walton	39	Sand Pine	27
3	Walton	417	Sand Pine	28
4	Walton	13	Sand Pine	24
		511		

On April 10, 2017, at 2:30 p.m. EDT, the District will conduct the bid opening for the 2017 Devils Swamp Sand Pine Timber Sale. The results of the bid opening will be provided in a supplement at the April 13, 2017, meeting for consideration by the Governing Board to award the contract to the company submitting the highest bid for these timber products.

#### NORTHWEST FLORIDA WATER MANAGEMENT DISTRICT GOVERNING BOARD MEETING MINUTES

District Headquarters 81 Water Management Drive Havana, FL 32333

Thursday March 9, 2017

Governing Board Members Present
George Roberts, Chair
Jerry Pate, Vice Chair
John W. Alter, Secretary-Treasurer
Gus Andrews
Jon Costello
Nick Patronis
Bo Spring

Governing Board Members Absent Marc Dunbar Ted Everett

#### 1. Opening Ceremonies

Governing Board Chairman George Roberts called the meeting to order at 1:12 p.m. Brett Cyphers called the roll and a quorum was declared present.

2. Additions, Deletions or Changes to the Agenda

Agenda item 6 was deleted.

3. Approval of the Minutes for February 9, 2017, and February 22, 2017

MOTIONED BY NICK PATRONIS, SECONDED BY JOHN W. ALTER, THAT THE GOVERNING BOARD APPROVE THE MINUTES FOR FEBRUARY 9, 2017, AND FEBRUARY 22, 2017. NO PUBLIC COMMENT WAS GIVEN. MOTION CARRIED.

4. Approval of the Financial Reports for the Month of January 2017

MOTIONED BY JOHN W. ALTER, SECONDED BY BO SPRING, THAT THE GOVERNING BOARD APPROVE THE FINANCIAL REPORTS FOR THE MONTH OF JANUARY 2017. NO PUBLIC COMMENT WAS GIVEN. MOTION CARRIED.

5. Committee Reports and Recommendations for Board Action

Resource Management Committee:

Consideration of the City of Jacob Funding Request

MOTIONED BY JERRY PATE, SECONDED BY JOHN W. ALTER, THAT THE GOVERNING BOARD APPROVE A ONE-TIME FUNDING REQUEST OF \$4,000.00 TO THE CITY OF JACOB CITY TO COMPLETE INSPECTION AND MAINTENANCE OF TWO WATER STORAGE TANKS. NO PUBLIC COMMENT WAS GIVEN. MOTION CARRIED.

<u>Consideration of Additional Funding for the City of DeFuniak Springs' Red Eye and Widner Circle</u> Waterline Loop Project

MOTIONED BY JERRY PATE, SECONDED BY NICK PATRONIS, THAT THE GOVERNING BOARD. APPROVE ADDITIONAL FUNDING IN THE AMOUNT OF \$39,981.00 FOR THE CITY OF DEFUNIAK SPRINGS' RED EYE AND WIDNER CIRCLE WATERLINE LOOP PROJECT AND AUTHORIZE THE EXECUTIVE DIRECTOR TO ENTER INTO AN AGREEMENT WITH THE CITY TO PROVIDE FUNDING NOT TO EXCEED A TOTAL OF \$93,136.00 FOR THIS PROJECT. NO PUBLIC COMMENT WAS GIVEN. MOTION CARRIED.

<u>Consideration of ITB 17B-008 for Well Construction and Aquifer Performance Testing of the Claiborne Aquifer</u>

MOTIONED BY JERRY PATE, SECONDED BY JON COSTELLO, THAT THE GOVERNING BOARD AWARD A CONTRACT TO HUSS DRILLING INC., FOR WELL CONSTRUCTION AND AQUIFER PERFORMANCE TESTING OF THE CLAIBORNE AQUIFER, JACKSON COUNTY AND AUTHORIZE THE EXECUTIVE DIRECTOR TO ENTER INTO AN AGREEMENT TO CONDUCT THE WORK. NO PUBLIC COMMENT WAS GIVEN. MOTION CARRIED.

Consideration of a Requisition for the Florida Geological Survey to Perform Work in Support of the Claiborne Aquifer Feasibility Evaluation

MOTIONED BY JERRY PATE, SECONDED BY NICK PATRONIS, THAT THE GOVERNING BOARD APPROVE A REQUISITION IN THE AMOUNT OF \$75,938.00 FOR THE FLORIDA GEOLOGICAL SURVEY TO PROVIDE HYDROGEOLOGIC SERVICES IN SUPPORT OF THE CLAIBORNE AQUIFER FEASIBILITY EVALUATION. NO PUBLIC COMMENT WAS GIVEN. MOTION CARRIED.

6. <u>Consideration of Resolution No. 819 Amending the Fiscal Year 2016-2017 Budget-Amendments No. 1 through 9</u>

Deleted.

### 7. Consideration of ITB 17B-009; Altha North 2017 Thinning Timber Sale

MOTIONED BY NICK PATRONIS, SECONDED BY JERRY PATE, THAT THE GOVERNING BOARD APPROVE THE BIDS SUBMITTED IN RESPONSE TO INVITATION TO BID 17B-009 AND AUTHORIZE THE EXECUTIVE DIRECTOR TO ENTER INTO AN AGREEMENT FOR THIS TIMBER SALE WITH THE HIGH BIDDER, PANHANDLE FORESTRY SERVICES, INC., AT THE BID PRICES OF \$14.00 PER TON FOR PINE PULPWOOD; \$23.50 PER TON FOR PINE CHIP-N-SAW; \$30.50 PER TON FOR PINE SAW TIMBER; AND \$8.00 PER TON FOR HARDWOOD PULPWOOD. NO PUBLIC COMMENT WAS GIVEN. MOTION CARRIED.

8. <u>Consideration of Grant of Utility Easement and Temporary Construction Easement at Meginnis Arm</u> Stormwater Facility

MOTIONED BY JOHN W. ALTER, SECONDED BY JERRY PATE, THAT THE GOVERNING BOARD AFFIRM THE UTILITY AND TEMPORARY CONSTRUCTION EASEMENT AREAS WILL NOT INTERFERE WITH CURRENT OR PLANNED DISTRICT PURPOSES AND AUTHORIZE THE EXECUTIVE DIRECTOR TO NEGOTIATE AND AUTHORIZE UTILITY AND TEMPORARY CONSTRUCTION EASEMENTS WITH THE CITY OF TALLAHASSEE UPON RECEIPT OF THE

FINAL DRAWINGS AND SUBJECT TO LEGAL COUNSEL REVIEW. NO PUBLIC COMMENT WAS GIVEN. MOTION CARRIED.

#### 9. 2017 Water Conservation Month

MOTIONED BY NICK PATRONIS, SECONDED BY JERRY PATE, THAT THE GOVERNING BOARD PROCLAIM THE MONTH OF APRIL 2017 AS WATER CONSERVATION MONTH. NO PUBLIC COMMENT WAS GIVEN. MOTION CARRIED.

#### 10. Legislative Update

Informational purposes only.

#### 11. Legal Counsel Report

Breck Brannen gave a detailed overview of the case referenced below. A copy of the report can be found on page 36 of the March 9, 2017, board folder.

<u>CGUPS, LLC, Steven Cox, and Claudia Cox, Petitioners v. Northwest Florida Water Management District and Florida Department of Transportation, Respondents, DOAH Case No. 16-4691</u>

Meeting was adjourned at 1:33 p.m.

April 13, 2017 Date

#### NORTHWEST FLORIDA WATER MANAGEMENT DISTRICT

#### <u>MEMORANDUM</u>

TO: Governing Board

THROUGH: Brett J. Cyphers, Executive Director

Guy Gowens, Chief of Staff

FROM: Lennie Zeiler, Director, Division of Asset Management

DATE: March 29, 2017

SUBJECT: Consideration of Acceptance of the Motor Vehicle Usage and Maintenance Audit

Presented by Law, Redd, Crona, & Munroe, P.A.

### Recommendation

Staff recommends the Governing Board accept Report #16-02 as presented.

#### **Background**

The Fiscal Year 2015-2016 Inspector General's Audit Work Plan included a review of the District's internal controls over motor vehicle usage and maintenance. Report #16-02 is titled, "Report on Internal Audit of Motor Vehicle Usage and Maintenance" dated February 27, 2017," and is provided to the Board as a separate document.

Law, Redd, Crona, & Munroe, P.A., conducted the audit and will be presenting observations and recommendations.

#### NORTHWEST FLORIDA WATER MANAGEMENT DISTRICT

### <u>MEMORANDUM</u>

TO: Governing Board

THROUGH: Brett Cyphers, Executive Director

Guy Gowens, Chief of Staff

Nick Wooten, Director, Division of Resource Management Jerrick Saquibal, Chief, Bureau of Hydrology and Engineering

FROM: John Crowe, Hydrologist IV

DATE: March 29, 2017

SUBJECT: Consideration of Additional Funding for the City of Monticello Downtown Water

Main Replacement Project

#### Recommendation

Staff recommends the Governing Board approve additional funding in the amount of \$83,980 for the City of Monticello Downtown Water Main Replacement project and authorize the Executive Director to enter into an agreement with the city to provide funding not to exceed a total of \$228,980 for this project.

#### **Background**

In December 2015, the Governing Board approved the City of Monticello's Downtown Water Main Replacement project in the amount of \$145,000. Along with the District's contribution, the Florida Legislature appropriated funds through DEP bringing the total construction budget to \$341,000. Upon receiving and reviewing the bids, the lowest qualified bid was submitted by Dixie Paving and Grading, Inc. at \$426,794, which exceeded the construction budget by \$85,794. The current costs are indicative of the relatively healthy construction market in northwest Florida and the fact that material costs have increased since the grant application estimate was prepared in October 2015. Using value engineering techniques and purchasing the materials directly (elimination of sales tax), the City was able to reduce the amount of additional funds required to complete the project to \$83,980. This project will replace leaking water mains that contribute significantly to the City's current estimated water system loss of approximately 200,000 gallons per month.

Grant funding remains available because of other water supply development grant projects that were unable to be completed. This funding is consistent with sections 373.703 and 373.705, Florida Statutes (F.S.), which state water management districts may provide assistance for water supply development to local governments and utilities.

# NORTHWEST FLORIDA WATER MANAGEMENT DISTRICT PUBLIC HEARING FOR REGULATORY MATTERS A G E N D A

District Headquarters 81 Water Management Drive Havana, Florida 32333 10 Miles West of Tallahassee U.S. Highway 90 Thursday April 13, 2017 1:05 p.m., ET

Note: Appeal from any NWFWMD Final Agency Action requires a record of the proceedings. Although Governing Board meetings are normally recorded, affected persons are advised that it may be necessary for them to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which the appeal is to be based. Persons with disabilities or handicaps who need assistance or reasonable accommodation in order to participate in these meetings should contact the District at least 72 hours in advance of these meetings to make appropriate arrangements.

#### PART I — CONSENT AGENDA

#### • WATER USE PERMITS

#### A. Permit Modification & Renewals

A-1 Applicant: Clinton Nurseries of Florida, Inc.

App. No.: 2B-039-3336-7 Use: Agricultural Use

Authorization Statement: This Permit authorizes the Permittee to make a total average annual withdrawal of 1.37 million gallons per day (110.0 million gallons per month maximum) for agricultural use, of which 0.211 million gallons per day (26.5 million gallons per month maximum) of groundwater may be withdrawn from the Floridan aquifer and 1.37 million gallons per day (110.0 million gallons per month maximum) of surface water may be withdrawn from impoundments of Cox and Vote Creeks.

Duration Recommended: 5 Years Staff Recommendation: Approval Public Comment Received: No

A-2- Applicant: Air Products and Chemicals, Inc.

App. No.: 2B-113-374-7

Use: Aquifer Remediation

Authorization Statement: This Permit authorizes the Permittee to make a combined average annual withdrawal of 2.0 million gallons per day (54.33 million gallons per month maximum) of groundwater from the Sand-and-Gravel aquifer for aquifer remediation use.

This Permit authorizes the Permittee to make a total average annual withdrawal of 1.37 million gallons per day (110.0 million gallons per month maximum) for agricultural use, of which 0.211 million gallons per day (26.5 million gallons per month maximum) of groundwater may be withdrawn from the Floridan aquifer and 1.37 million gallons per day (110.0 million gallons per month maximum) of surface water may be withdrawn from impoundments of Cox and Vote Creeks.

**Recommendation:** Approval

Reviewers: Dominic Delgado

#### RECOMMENDED PERMIT DURATION AND COMPLIANCE REPORTING:

Staff recommends the permit expiration date be April 1, 2022. The Permittee is required to submit and comply with all information and data pursuant to the conditions set forth in the permit.

#### **DESCRIPTION:**

Clinton Nurseries of Florida, Inc. requests the renewal and transfer of Individual Water Use Permit (IWUP) No. 2B-039-3336-7 from BFN Operations, LLC, to Clinton Nurseries for the continued authorization of surface water withdrawals from impoundments of Cox and Vote Creek and emergency groundwater withdrawals from the Floridan aquifer for the irrigation of 280 acres of potted nursery plants with the potential for production to increase to historical levels of 360 acres. However, the applicant requests no changes to the currently permitted withdrawal amounts.

Surface water and groundwater withdrawn from Cox Creek, Vote Creek, and the Floridan aquifer is stored in a series of recycle capture ponds. These impoundments capture and store rainfall runoff from 321 acres of adjacent area, of which approximately 280 acres is growing area that directs irrigation runoff back into the impoundments. The combined storage capacity of the three recycle capture ponds is approximately 47,300,000 gallons, which enables the high volume pumping required for irrigation at Clinton's production scale.

When surface water is insufficient to meet the facility's irrigation demands, Clinton Nurseries of Florida, Inc. is authorized emergency back-up groundwater withdrawals from the Floridan aquifer.

Staff used the Agricultural Field Scale Irrigation Requirements Simulation (AFSIRS) to verify allocations recommended previously by staff for the irrigation demand associated with the potential for 360 acres of Nursery plants in containers. Staff recommends authorization of the historically permitted amounts.

The potential for Clinton Nurseries of Florida, Inc.'s withdrawals to reduce stream flow, in Cox and Vote Creeks, necessitated the use of flow maintenance structures in previous permits. The

TSR 2B-039-3336-7 Page 2 of 9

facility has incorporated such structures into their use, and continued use of the structures is conditioned in this permit. The presence of such devices are most critical during extremely dry, low flow periods when irrigation demand is higher than normal. The devices provide for continued surface water flows during low-flow conditions, in order to protect water resources, wetlands, and downstream uses of these creeks.

The applicant's withdrawals represent an existing, long-term use of tributaries of Telogia Creek, and in emergency conditions, the Floridan aquifer. To ensure the conditions of permit issuance will be met for the recommended permit duration of 5 years, the Permittee will be required to closely monitor and report hydrologic conditions in the Floridan aquifer.

#### PERMIT APPLICATION REVIEW:

Section 373.223, Florida Statutes (F.S.), and section 40A-2.301, Florida Administrative Code (F.A.C.), require an applicant to establish that the proposed use of water:

- (a) Is a reasonable-beneficial use;
- (b) Will not interfere with any presently existing legal use of water; and,
- (c) Is consistent with the public interest.

In addition, the above requirements are detailed further in the District's Water Use Permit Applicant's Handbook. District staff have reviewed the water use permit application pursuant to the above-described requirements and have determined that the application meets the conditions for issuance of this permit.

#### **RECOMMENDATION:**

It is the determination of the staff that the water use amounts recommended, as conditioned, are reasonable-beneficial, consistent with the public's interest, and will not harm the water resources of the area or interfere with existing legal uses. This determination has been made according to provisions of Chapter 373, F.S., and Chapter 40A-2, F.A.C.

Staff recommends that the applicant be granted an Individual Water Use Permit for an annual average daily withdrawal of 1.37 million gallons and a maximum monthly withdrawal of 110.00 million gallons. Staff also recommends that the expiration date of the permit be April 1, 2022, and that the permit be conditioned as per the "Conditions for Issuance" in Exhibit A of the permit document.

# "EXHIBIT A" CONDITIONS FOR ISSUANCE OF PERMIT NUMBER 2B-039-3336-7 Clinton Nurseries of Florida, Inc.

#### **Specific Conditions**

- 1. This permit shall expire on April 1, 2022.
- 2. This Permit authorizes the Permittee to make a total average annual withdrawal of 1.37 million gallons per day (110. 0 million gallons per month maximum) for agricultural use, of which 0.211 million gallons per day (26.5 million gallons per month maximum) of groundwater may be withdrawn from the Floridan aquifer and 1.37 million gallons per day (110.0 million gallons per month maximum) of surface water may be withdrawn from impoundments of Cox and Vote Creeks. The individual facilities authorized to make this combined withdrawal are shown in the table below in the following condition. The total combined amounts of water withdrawn by all facilities listed shall not exceed the amounts identified above.

3.

Facility ID #	FLUWID	Location SEC,TWN,RNG
OW #1	AAD9100	Sec.14,T2N,R4W
GW #1	AAD5595	Sec.22,T2N,R4W

IN #13		Sec.22,T2N,R4W

4. The Permittee shall include the Individual Water Use Permit number and the well's Florida Unique Identification Number (e.g. AAD9080 for GW #2) when submitting reports or otherwise corresponding with the District.

TSR 2B-039-3336-7 Page 5 of 9

- 5. The Permittee, by January 31 of each year, shall submit a water use report for the previous calendar year (January December), even if no water is used. The Permittee shall record the data required on Water Use Reporting Form (Form 173). The Permittee, if preferred, may submit the report electronically by downloading the correct form from the District website, filling it out properly, and e-mailing it to compliance@nwfwater.com.
- 6. The Permittee shall install and maintain in-line, totalizing flow meters on all active production wells and surface water pumps. The meters shall be maintained to be at least 95% accurate and any meter determined defective must be replaced within 30 days of its discovery. The Permittee, within 30 days of well completion or completion of project construction, shall provide documentation to the District that the required flow meters have been installed and report the initial meter readings.
- 7. The Permittee, at the time of requesting a permit modification or renewal, shall submit documentation of the flow meter calibration and accuracy rating to the District using the Flow Meter Accuracy Report Form (Form 170). The Permittee, if preferred, may submit the report electronically by downloading the correct form from the District website, filling it out properly, and e-mailing it to compliance@nwfwater.com.
- 8. The Permittee, at the time of permit renewal, shall provide a description of water conservation and efficiency measures currently implemented or planned to be implemented during the permit duration to minimize groundwater and surface water withdrawals. Measures may include, but are not limited to: Irrigation system evaluation using the Mobile Irrigation Lab (MIL); Irrigation systems upgrades to improve efficiency; improvements to the operation and management of irrigation systems; enhancing reuse and recycling; limiting irrigation to early morning or evening hours to minimize evaporative losses; and other Best Management Practices.
- 9. The Permittee, shall maintain in working order at all times, the low flow devices installed on Vote Creek and Cox Creek. The Permittee shall manage its withdrawal activity such that Vote Creek maintains discharge of 0.30 cubic feet per second or greater immediately downstream of the withdrawal site and Cox Creek maintains discharge of 0.89 cubic feet per second or greater immediately downstream of the surface water impoundment at any time the Permittee is utilizing these withdrawal facilities.
- 10. The Permittee, prior to initiating each emergency back-up groundwater use event but not to exceed one sample per calendar month, shall sample active production wells for water quality analysis. The Permittee shall purge at least three to five well volumes from each well, and shall report with each set of test results, the duration of purging, purge volume, and purge rates used. The Permittee shall sample all active production wells and OW #1 for water quality analysis the first week of each subsequent month of each emergency back-up ground water use event. All sampling and analysis shall conform to Chapter 62-160, F.A.C. Furthermore, all water quality analysis shall be conducted by a laboratory with National Environmental Laboratory Accreditation Program (NELAP) and Florida Department of Health Rule 64E-1, F.A.C. certification for the constituents of concern. Each water quality analysis shall test for the following analytes: total sodium, total chloride, and total dissolved solids. The Permittee shall submit the water quality analysis results to the District no later than the last day of the month following each month of sampling.

TSR 2B-039-3336-7 Page 6 of 9

- 11. The Permittee, prior to initiating each emergency back-up ground water use event, shall record static water level data from all active production wells and OW #1. Water levels from all three wells shall also be recorded the day following the initiation of ground water withdrawals and each week thereafter, for each emergency back-up ground water use event. Water level monitoring in all production wells shall be performed using the existing airline and reported to the nearest 1-foot precision. Water level monitoring in well OW #1 shall be performed with a tape, graduated in 0.01-foot increments and reported to 0.01-foot precision. The Permittee shall report date of measurement as well as depth-to water below a pre-defined measure point. The Permittee shall submit the water level measurements to the District within two days of recording of the data.
- 12. The Permittee, periodically within the first week of each month, shall record static water level data from all active production wells and OW #1. Water level monitoring in production wells shall be performed using the existing airline and reported to the nearest foot precision. Water level monitoring in well OW #1 shall be performed with a tape, graduated in 0.01-foot increments and reported to 0.01-foot precision. The Permittee shall report date of measurement as well as depth-to-water below a pre-defined measure point. Permittee shall submit the water level measurements to the District no later than the end of the last day of the month in which the measurements were taken.
- 13. The Permittee, at the end of the first emergency withdrawal period of the season, shall sample all active production wells for water quality analysis. Each water quality analysis shall test for the following analytes: total sodium, total chloride, and total dissolved solids. The Permittee shall purge at least three to five well volumes from each well, and shall report with each set of test results, the duration of purging, purge volume, and purge rates used. The Permittee shall sample wells all active production wells for water quality analysis the first week of each subsequent month of each emergency back-up ground water use event. All sampling and analysis shall conform to Chapter 62-160, F.A.C. Furthermore, all water quality analysis shall be conducted by a laboratory with National Environmental Laboratory Accreditation Program (NELAP) and Florida Department of Health Rule 64E-1, F.A.C., certification for the constituents of concern. The Permittee shall submit the water quality analysis results to the District no later than the last day of the month following each month of sampling. Where this requirement coincides with the quarterly sampling requirement, this is the only sample and analysis required.
- 14. The Permittee, within the first two weeks of each January, April, July, and October, shall sample all production wells for water quality analysis. Each water quality analysis shall test for the following analytes: total sodium, total chloride, and total dissolved solids. The Permittee shall purge at least three well volumes from each well, and shall report with each set of test results, the duration of purging, purge volume, and purge rates used. All water quality analysis shall be conducted by a laboratory with National Environmental Laboratory Accreditation Program (NELAP) and Florida Department of Health Rule 64E-1, F.A.C., certification for the constituents of concern. The Permittee shall submit the water quality analysis results to the District no later than the last day of the month following each month of sampling. Where sampling for this requirement coincides with the requirements of specific condition #13, specific condition #13 takes precedence.
- 15. The Permittee shall annually evaluate the efficiency of each of its irrigation units and undertake necessary maintenance, repairs and upgrades to provide for the proper

TSR 2B-039-3336-7 Page 7 of 9

- efficiency of its equipment. The Permittee shall maintain the irrigation system to prevent wasteful runoff from the property associated with irrigation.
- 16. The Permittee shall equip the well and irrigation system with an anti-siphoning device if chemicals are to be applied through the irrigation system, as required by section 487.064, F.S.
- 17. The Permittee, prior to the construction, alteration and/or enhancement of any surface water withdrawal, diversion, or management system, shall contact the District to determine if a permit will be required. A permit would be required by the District for activities including creek sandbagging, sump excavation, and any maintenance beyond that considered routine or custodial.
- 18. The Permittee shall ensure that any new irrigation system(s) purchased is/are of an efficiency rating of 90% or greater.
- 19. The Permittee shall maximize the use of reclaimed water if it is available and its use is environmentally, economically and technically feasible.

#### **Standard Conditions**

- 20. All water uses authorized by this permit shall be implemented as conditioned by this permit, including any documents incorporated by reference in a permit condition. The District may revoke this permit, in whole or in part, or take enforcement action, pursuant to sections 373.136 or 373.243, F.S., unless a permit modification has been obtained to address the noncompliance.
- 21. The Permittee shall immediately notify the District in writing of any previously submitted information that is later discovered to be inaccurate.
- 22. This permit does not convey to the Permittee any property rights or privileges other than those specified herein, nor relieve the Permittee from complying with any applicable local government, state, or federal law, rule, or ordinance.
- 23. The Permittee shall notify the District in writing within 30 days of any sale, transfer, or conveyance of ownership or any other loss of permitted legal control of the Project and/or related facilities from which the permitted water use is made. Where Permittee's control of the land subject to the permit was demonstrated through a lease, the Permittee must either submit documentation showing that it continues to have legal control or transfer control of the permitted system/project to the new landowner or new lessee. All transfers of ownership are subject to the requirements of section 40A-2.351, F.A.C. Alternatively, the Permittee may surrender the water use permit to the District, thereby relinquishing the right to conduct any activities under the permit.
- 24. Nothing in this permit should be construed to limit the authority of the District to declare a water shortage and issue orders pursuant to Chapter 373, F.S. In the event of a declared water shortage, the Permittee must adhere to the water shortage restrictions, as specified by the District. The Permittee is advised that during a water shortage, reports shall be submitted as required by District rule or order.

TSR 2B-039-3336-7 Page 8 of 9

- 25. With advance notice to the Permittee, District staff with proper identification shall have permission to enter, inspect, observe, collect samples, and take measurements of permitted facilities to determine compliance with the permit conditions and permitted plans and specifications. The Permittee shall either accompany District staff onto the property or make provision for access onto the property.
- 26. The Permittee may seek modification of any term of an unexpired permit. The Permittee is advised that section 373.239, F.S., and section 40A-2.331, F.A.C., are applicable to permit modifications.
- 27. The Permittee shall mitigate any harm caused by withdrawals or diversions permitted herein on legal water uses, offsite land use, and water resources and associated environmental features which existed at the time of permit application. The District reserves the right to curtail permitted withdrawal and diversion rates if the withdrawal or diversion causes harm to legal uses of water, offsite land use, or water resources and associated environmental features that existed at the time of permit application.
- 28. The Permittee shall not cause harmful saltwater intrusion. The District reserves the right to curtail permitted withdrawal rates if withdrawals cause harmful saline water intrusion.
- 29. The Permittee's consumptive use of water as authorized by this permit shall not reduce a flow or level below any minimum flow or level established by the District or the Department of Environmental Protection pursuant to Sections 373.042 and 373.0421, F.S. If the Permittee's use of water causes or contributes to such a reduction, then the District shall revoke the permit, in whole or in part, unless the Permittee implements all provisions applicable to the Permittee's use in a District-approved recovery or prevention strategy.
- 30. The Permittee shall mitigate any harm caused by withdrawals or diversions permitted herein on legal uses, offsite land use, and water resources and associated environmental features which existed at the time of permit application. Mitigation may include modification of the Permittee's pumping schedule (i.e., duration, withdrawal rates, time of day, etc.), the lowering of the affected pump(s) or the replacement of the well(s) including proper plugging and abandonment of the well(s) that is replaced. The Permittee, upon receipt of an allegation of interference, shall retain the services of an appropriate licensed professional to investigate the alleged interference. The Permittee shall ensure their chosen professional investigates any alleged interference within 48 hours of the allegation being made and provides the conclusions of the investigation to the entity alleging the impact within 72 hours of the allegation being made. If it is determined that the use of a well has been impaired as a result of the Permittee's operation, the Permittee shall complete the required mitigation within 30 days. The Permittee shall be responsible for the payment of services rendered by the licensed professional. The Permittee, within 30 days of any allegation of interference, shall submit a report to the District including the date of the allegation, the name and contact information of the party making the allegation, the result of the investigation made, and any mitigation action undertaken.

(610) 481-4590

**Project Name:** Air Products and Chemicals, Inc. - Groundwater Remediation Project

County: Santa Rosa

WRCA: N/A
ARC: N/A
Objectors: No

This Permit authorizes the Permittee to make a combined average annual withdrawal of 2.0 million gallons per day (54.33 million gallons per month maximum) of groundwater from the Sand-and-Gravel aquifer for aquifer remediation use.

**Recommendation:** Approval

Reviewers: Matt Celestino

TSR 2B-113-374-7 Page 1 of 11

#### RECOMMENDED PERMIT DURATION AND COMPLIANCE REPORTING:

Staff recommends the permit expiration date be April 1, 2037. The Permittee is required to submit and comply with all information and data pursuant to the conditions set forth in the permit.

#### WITHDRAWAL INFORMATION:

Groundwater Use	Permitted	Requested	Recommended
Average Day (GPD)	2,000,000	2,000,000	2,000,000
Maximum Month (GAL)	54,330,000	54,330,000	54,330,000

#### **DESCRIPTION:**

Air Products and Chemicals, Inc. requests renewal of Individual Water Use Permit (IWUP) No. 2B-113-374-7 for continued authorization of groundwater withdrawals from the Sand-and-Gravel aquifer for aquifer remediation uses with no changes to the currently permitted withdrawal amounts. The Permittee has complied with the conditions of the existing IWUP.

The applicant, at the behest of the Florida Department of Environmental Protection (FDEP) and U.S. Environmental Protection Agency, is withdrawing groundwater as part of an aquifer restoration program. The remediation program involves the use of Sand-and-Gravel aquifer wells to withdrawal water contaminated with dissolved dinitrotoluene (DNT). To date, the applicant has constructed 41 recovery wells, with a total of 66 expected to be installed over the life of the project. Extracted groundwater is treated with granular activated carbon onsite and is then injected into the Lower Floridan aquifer using an injection well (IW #1, AAA2107). In areas adjacent to wetlands, groundwater recovered in the area would be treated and reinjected into the subsurface adjacent to the recovery area to prevent negative impacts to the wetlands. The continued operation of the aquifer restoration program will assist in the protection of the resource and other use(s) in the area.

The recovery site is situated adjacent to both Escambia Bay and to jurisdictional wetlands. The project has made adjustments to the project as needed including shutting down wells or moving planned wells to ensure that both of these resources are protected.

The applicant is aware of the potential for intrusion of saltwater from Escambia Bay as a result of pumping, and is working with FDEP to optimize the recovery site plan to minimize impacts. In addition, the applicant will continue to evaluate the performance of each well using capture zone analysis. The applicant has agreed to submit data from their capture zone analysis when it becomes available to both the FDEP and the District. The applicant has submitted to the District the results of a 1995 ground water flow model as well as impact evaluations in 2003 and 2017 concluding that negative impacts from ground water recovery are not anticipated.

Staff utilized the analytical program DRAWDOWN to simulate withdrawals from the Sand-and-Gravel aquifer. Drawdowns of less than a foot were simulated at distances of one-half mile and one mile from the center of pumping. These drawdowns are not anticipated to cause harm to the resource or interfere with existing legal uses.

TSR 2B-113-374-7 Page 2 of 11

#### PERMIT APPLICATION REVIEW:

Section 373.223, Florida Statutes (F.S.), and section 40A-2.301, Florida Administrative Code (F.A.C.), require an applicant to establish that the proposed use of water:

- (a) Is a reasonable-beneficial use;
- (b) Will not interfere with any presently existing legal use of water; and,
- (c) Is consistent with the public interest.

In addition, the above requirements are detailed further in the District's Water Use Permit Applicant's Handbook. District staff have reviewed the water use permit application pursuant to the above-described requirements and have determined that the application meets the conditions for issuance of this permit.

#### **RECOMMENDATION:**

It is the determination of the staff that the water use amounts recommended, as conditioned, are reasonable-beneficial, consistent with the public's interest, and will not harm the water resources of the area or interfere with existing legal use(s). This determination has been made according to provisions of Chapter 373, F.S., and Chapter 40A-2, F.A.C.

Staff recommends that the applicant be granted an Individual Water Use Permit for an annual average daily withdrawal of 2.0 million gallons; and a maximum monthly withdrawal of 54.33 million gallons. Staff also recommends that the expiration date of the permit be April 1, 2037, and that the permit be conditioned as per the "Conditions for Issuance" in Exhibit A of the permit document.

# "EXHIBIT A" CONDITIONS FOR ISSUANCE OF PERMIT NUMBER 2B-113-374-7 Air Products and Chemicals, Inc. - Groundwater Remediation Project

#### **Specific Conditions**

- 1. This permit shall expire on April 1, 2037.
- 2. This Permit authorizes the Permittee to make a combined average annual withdrawal of 2.0 million gallons per day (54.33 million gallons per month maximum) of groundwater from the Sand-and-Gravel aquifer for aquifer remediation use. The individual facilities authorized to make this combined withdrawal are shown in the table below in the following condition. The total combined amounts of water withdrawn by all facilities listed shall not exceed the amounts identified above.

- 4. The Permittee shall include the Individual Water Use Permit number and the well's Florida Unique Identification Number (e.g. AAA2105 for SW-301) when submitting reports or otherwise corresponding with the District.
- 5. The Permittee shall install and maintain in-line, totalizing flow meters at the well head of all Sand-and-Gravel aquifer withdrawal wells. The meters shall be maintained to be at least 95% accurate and any meter determined defective must be replaced within 30 days of its discovery. The Permittee, within 30 days of well completion or completion of project construction, shall provide documentation to the District that the required flow meters have been installed and report the initial meter readings.
- 6. The Permittee, by January 31 of each year, shall submit a water use report for the previous calendar year (January December), even if no water is used. The Permittee shall record the data required on Water Use Summary Reporting Form (Form 172). The Permittee, if preferred, may submit the report electronically by downloading the correct form from the District website, filling it out properly, and e-mailing it to <a href="mailto:compliance@nwfwater.com">compliance@nwfwater.com</a>.
- 7. The Permittee, by January 31 of each year, shall submit to the District an inventory of the condition and operational status of all wells on the property. The inventory, for any well determined unsuitable for its intended use or not in service, shall identify either the date the well will be properly abandoned or the date it will be placed back into service.
- 8. The Permittee shall submit results of the evaluation of capture zone analysis for each newly installed well to the District under Florida Department of Environmental Protection (FDEP) consent order (OGC File No. 13-1223, October 2014) when it comes available.

#### **Standard Conditions**

9. All water uses authorized by this permit shall be implemented as conditioned by this permit, including any documents incorporated by reference in a permit condition. The District may

TSR 2B-113-374-7 Page 9 of 11

- revoke this permit, in whole or in part, or take enforcement action, pursuant to sections 373.136 or 373.243, F.S., unless a permit modification has been obtained to address the noncompliance.
- 10. The Permittee shall immediately notify the District in writing of any previously submitted information that is later discovered to be inaccurate.
- 11. This permit does not convey to the Permittee any property rights or privileges other than those specified herein, nor relieve the Permittee from complying with any applicable local government, state, or federal law, rule, or ordinance.
- 12. The Permittee shall notify the District in writing within 30 days of any sale, transfer, or conveyance of ownership or any other loss of permitted legal control of the Project and/or related facilities from which the permitted water use is made. Where Permittee's control of the land subject to the permit was demonstrated through a lease, the Permittee must either submit documentation showing that it continues to have legal control or transfer control of the permitted system/project to the new landowner or new lessee. All transfers of ownership are subject to the requirements of section 40A-2.351, F.A.C. Alternatively, the Permittee may surrender the water use permit to the District, thereby relinquishing the right to conduct any activities under the permit.
- 13. Nothing in this permit should be construed to limit the authority of the District to declare a water shortage and issue orders pursuant to Chapter 373, F.S. In the event of a declared water shortage, the Permittee must adhere to the water shortage restrictions, as specified by the District. The Permittee is advised that during a water shortage, reports shall be submitted as required by District rule or order.
- 14. With advance notice to the Permittee, District staff with proper identification shall have permission to enter, inspect, observe, collect samples, and take measurements of permitted facilities to determine compliance with the permit conditions and permitted plans and specifications. The Permittee shall either accompany District staff onto the property or make provision for access onto the property.
- 15. The Permittee may seek modification of any term of an unexpired permit. The Permittee is advised that section 373.239, F.S., and section 40A-2.331, F.A.C., are applicable to permit modifications.
- 16. The Permittee shall mitigate any harm caused by withdrawals or diversions permitted herein on legal water uses, offsite land use, and water resources and associated environmental features which existed at the time of permit application. The District reserves the right to curtail permitted withdrawal and diversion rates if the withdrawal or diversion causes harm to legal uses of water, offsite land use, or water resources and associated environmental features that existed at the time of permit application.
- 17. The Permittee shall not cause harmful saltwater intrusion. The District reserves the right to curtail permitted withdrawal rates if withdrawals cause harmful saline water intrusion.
- 18. The Permittee's consumptive use of water as authorized by this permit shall not reduce a flow or level below any minimum flow or level established by the District or the Department of Environmental Protection pursuant to Sections 373.042 and 373.0421, F.S. If the Permittee's use of water causes or contributes to such a reduction, then the District shall

TSR 2B-113-374-7 Page 10 of 11

- revoke the permit, in whole or in part, unless the Permittee implements all provisions applicable to the Permittee's use in a District-approved recovery or prevention strategy.
- 19. The Permittee shall mitigate any harm caused by withdrawals or diversions permitted herein on legal uses, offsite land use, and water resources and associated environmental features which existed at the time of permit application. Mitigation may include modification of the Permittee's pumping schedule (i.e., duration, withdrawal rates, time of day, etc.), the lowering of the affected pump(s) or the replacement of the well(s) including proper plugging and abandonment of the well(s) that is replaced. The Permittee, upon receipt of an allegation of interference, shall retain the services of an appropriate licensed professional to investigate the alleged interference. The Permittee shall ensure their chosen professional investigates any alleged interference within 48 hours of the allegation being made and provides the conclusions of the investigation to the entity alleging the impact within 72 hours of the allegation being made. If it is determined that the use of a well has been impaired as a result of the Permittee's operation, the Permittee shall complete the required mitigation within 30 days. The Permittee shall be responsible for the payment of services rendered by the licensed professional. The Permittee, within 30 days of any allegation of interference, shall submit a report to the District including the date of the allegation, the name and contact information of the party making the allegation, the result of the investigation made, and any mitigation action undertaken.

#### **MEMORANDUM**

TO: Northwest Florida Water Management District Governing Board

FROM: J. Breck Brannen, General Counsel

RE: Legal Counsel Report

DATE: March 29, 2017

CGUPS, LLC, Steven Cox, and Claudia Cox, Petitioners v. Northwest Florida Water Management District and Florida Department of Transportation, Respondents, DOAH Case No. 16-4691

This is a case brought by the Petitioners challenging the proposed issuance by the District of an environmental resource permit to FDOT relating to FDOT's widening of State Road 390 in Panama City, Florida.

The discovery phase of the litigation is ongoing.

The final hearing of this case has been continued indefinitely and the case is currently held in abeyance under the jurisdiction of DOAH while FDOT considers modifying its permit application. On March 1, 2017, issued an order holding the case in abeyance and requiring notification of the status of FDOT permit modifications by no later than April 28, 2017.

The District is continuing to vigorously defend its decision to issue the permit and the District remains confident in its position.

There are no other pending cases in which the District is a party.
