

Brewer Tract – 2009 Monitoring
CORPS Permit No. 200002363 (IP-CP)

Northwest Florida Water Management District (NFWWMD) staff conducted a site visit and photo-monitoring December 16, 2009 for mitigation associated with CORPS Permit No. 200002363 (IP-CP). In partial fulfillment of permit conditions, the NFWWMD in 2005 purchased the 76-acre Brewer Tract¹ on the Backwater River for perpetual preservation and management in a natural state. During the 2009 inspection no nuisance or exotic species, trash dumping or other disturbances were noted. Ecologically, this site continues to appear in excellent condition with abundant obligate, facultative-wet, and facultative vegetation.

¹ Acreage and year of acquisition incorrectly reported in earlier monitoring reports.
