The Honorable Rick Scott, Governor  
Plaza Level, The Capitol  
400 South Monroe Street  
Tallahassee, FL 32399-0001

Subject: Northwest Florida Water Management District  
Adopted Budget for Fiscal Year 2015–2016

Dear Governor Scott:

The Northwest Florida Water Management District respectfully submits its adopted Fiscal Year (FY) 2015-2016 Budget, in accordance with section 373.536, Florida Statutes.

On September 24, 2015, the District's Governing Board adopted a \$55.7 million budget, which uses the roll-back millage rate for taxpayers while maintaining a focus on priority areas including springs protection; the development of minimum flows and levels for the region's vital springs and aquifers; water supply grant assistance to local communities; and protection of the Apalachicola River and Bay and St. Andrew Bay watersheds.

The District's budget is comprised of a combination of ad valorem revenue, state and federal funding, and other revenues, including timber sales. The District also continues to direct significant levels of state revenue appropriated during prior fiscal years to fund key water resource protection projects.

The District's budget is built on a foundation of projects that are directly in line with its statutory mission of water supply, water quality, natural systems, and flood protections, including:

- \$17.3 million for Springs Projects. This funding will enable the District to implement springs restoration projects for Wakulla Springs and Jackson Blue Spring as well as springs associated with the Holmes and Econfina creek systems.
- \$13.9 million for Water Supply Development Assistance. This funding includes \$2.3 million for the implementation of new local grant funding for cooperative water supply development assistance.
- \$4.8 million for Watershed Restoration. This funding will facilitate continued efforts to protect and restore water quality and estuarine habitats in the Apalachicola River and Bay and St. Andrew Bay systems through the implementation of cooperative stormwater retrofit projects and other best management practices. This funding will also support focused project planning to benefit watersheds across Northwest Florida.

- \$1.7 million for monitoring and technical assessments to develop MFLs for the St. Marks River Rise, Wakulla Spring, Sally Ward Spring, Jackson Blue Spring and the Floridan aquifer in coastal Okaloosa, Santa Rosa and Walton counties. This also includes MFL hydrologic monitoring for water levels, discharge, and rainfall at 97 sites across the Panhandle.

Thank you for the opportunity to present the District's FY 2015-2016 Budget. If I can be of any assistance or provide further information, please do not hesitate to contact me.
