2. Funding Program and Project Type. First select a funding program (either A or B below), then check any project types that apply. See **Application Guidelines** for details.

A. ☐ Alternative Water Supply

- ☐ Reclaimed Water
- ☐ Water Conservation
- ☐ Stormwater
- ☐ Surface Water

- ☐ Brackish Groundwater or Desalination
- ☐ Other Non-Traditional / Other Water Quantity
(name of AWS): _____

B. ☐ **Springs Restoration**

- ☐ Wastewater Collection and Treatment
- ☐ Water Conservation
- ☐ Stormwater
- ☐ Hydrologic Restoration

- ☐ Agricultural Best Management Practices
- ☐ Land Acquisition
- ☐ Reuse
- ☐ Other Water Quality/Quantity

3. Project Description

In 200 words or less, provide a concise but complete description of the proposed project. **What does the project do and why is it needed?** Be specific with size or scope of the project, purpose, activities, tasks, and quantity of work or items to complete (i.e., number of connections served, linear feet of pipe, etc.).

4. Project Outcomes and Benefits

In 200 words or less, describe the anticipated outcomes, results, and benefits of the proposed project. Name of the spring, aquifer or waterbody that will receive the most direct benefit from the proposed project as well as any secondary or ancillary water resources to be benefitted. Note whether the project addresses any water quality impairments, management plan strategies (such as Basin Management Action Plans, Regional Water Supply Plan, etc.), or benefits other priority water resources. Benefits may also include local community or economic development, additional environmental or natural system protection, and if the project provides additional or complementary benefits to other efforts.

A. ☐ **Water Quantity Benefits (check box and fill in below as applicable)**

Reuse Flow (MGD):		Where applicable, quantity of potable offset reuse (MGD):	
-------------------	--	---	--

Other AWS/Non-Reuse Flow (MGD):		Storage or Distribution/ Transmission Capacity (MG):	
---------------------------------	--	--	--

Water Conservation Savings. Include the estimated quantity (MGD) and how it was calculated:

--

B. ☐ **Water Quality (check box and fill in below as applicable).** Refer to [DEP's tools and guidance](#) for assistance on how to measure project benefits.

Nitrogen Reduced (lbs./yr.):		Sediment Reduced (lbs./yr.):	
------------------------------	--	------------------------------	--

Any other expected water quality benefits:

--

C. **Measures of Success.** Briefly describe how the project's effectiveness will be measured and indicate specific metrics. Examples include pre- and post- water quantity or quality audits, number of added customers, monitoring programs, etc.

--

5. Project Status and Schedule

A. Select the current status of the project (check one).	<input type="checkbox"/> Conceptual planning <input type="checkbox"/> Design stage; % complete: _____ <input type="checkbox"/> Shovel-ready
B. Briefly describe the project schedule and planned next steps. Note that all projects should plan to begin in the Winter 2024-25 and be complete within 24-36 months.	
C. Describe the applicant's readiness to proceed and commitment to complete project within the proposed timeframe.	
D. Briefly describe any known or anticipated challenges (e.g., permitting, site access, labor or funding constraints, easements, etc.), and how they will be addressed.	

6. Project Funding

Complete the following: (A) project budget table, (B) financial need and local commitments, and (C) any additional funding sources. Where available, submit project and construction cost estimates with this application.

A. Project Budget Table

Budget by Task	Requested Grant Amount	Match Funding Amount ⁽ⁱ⁾	Match Funding Source
1) _____			
2) _____			
3) _____			
4) _____			
5) _____			
6) _____			
Totals			
Total Project Cost			

(i) Except for qualifying communities, a minimum 50% match of the overall cost to complete the project is required. Match funds will transfer to a contract requirement, so only include committed funds.

B. Financial Need and Local Commitment

In 150 words or less, provide a description of local commitments, match, and financial need. Identify project partners or cooperating entities and how they are contributing or how match funds are committed to the project. Describe public support and how this was achieved (noticed meetings, public workshops, etc.). Also describe the capability of local revenue sources for ongoing operation and maintenance over the life of the proposed project.

Indicate if the applicant is economically distressed or financially disadvantaged pursuant to ss. 288.0656 or 403.1838(2), Florida Statutes.

Clearly indicate if project is contingent upon additional funding sources to proceed as presented (including if a companion project is planned).

C. Additional Funding Sources

Note all that apply including year and/or status (include all years and funding amounts).
