

FY 2024-2025 Water Project Funding

GENERAL CONDITIONS FOR RECEIVING FUNDS

- **Cooperative Agreement.** Each award recipient must enter into a cooperative agreement with the District. The agreement will specify the scope of work with tasks and deliverables, project schedule, reporting requirements, project management, and invoicing. An example agreement can be provided upon request.
- **Completion of Projects.** Projects awarded funding must be completed within 24-36 months of execution of the cooperative agreement.
- **Ownership of Facilities.** Applicants with capital projects will be required to construct, own, operate, and maintain all facilities, and/or show compliance with all capital facilities requirements, in accordance with state, federal, and local regulations.
- **Compliance with Permits.** Applicants will be required to obtain all applicable federal, state, and local permits to complete a project and certify that the project is in compliance with said permits. Additionally, applicants will be required to maintain compliance with all District permits from time of application throughout the life of the project. Applicants who are not in compliance with any District permit will not be considered for a funding award.
- **Project Funding.** Funding provided may not exceed 50 percent of the overall project cost. The District Governing Board and DEP may waive these requirements for projects serving financially disadvantaged communities.
- **Funding Provisions.** Funding will be provided on a reimbursement basis no more frequently than monthly. In cases of financial hardship, the District may consider funding on a cost-incurred basis for work completed on a case-by-case basis. At a minimum, the grantee is required to submit an annual invoice for work completed through the end of each District fiscal year (September 30). Financial need should be demonstrated, as these programs are not intended to supplant existing sources of funds. Grant funds shall not be applied to any costs incurred prior to the date of grant agreement execution.
- **Communication and Reporting.** The grantee will be required to provide monthly status reports (email, phone call) and formal quarterly reports throughout the life of the project. A final report summarizing all work accomplished is also required.
- **Local Construction Services – Capital Projects.** For competitive solicitation of construction projects where state funds will comprise any of the construction costs, local contractor preference conditions for maintaining a place of business, hiring employees or engaging subcontractors, or prior payment of taxes or assessments, are not allowable. Please see [S. 255.0991, F.S.](#), for more information.
