

Agricultural Cost-Share Grant Program

Eligible Equipment and Practices

Conservation Tillage	Nutrient Management	Irrigation Management	Sod-Based Rotation	Livestock Management
Cover Crops	Cover Crops	Cover Crops	Perimeter Fencing	Cover Crops
Strip Till	Variable Rate Spreader	Nozzle Package	Pasture Grass Establishment	Portable Feeder
No-till Drill	Variable Rate Sprayer	Control Panel	Livestock Management Equipment	Portable Corral
Crimper Roller	Granular Fertilizer Bander	Variable Rate Irrigation	Irrigation Management Equipment	Alternative Water Source
Variable Rate Sprayer	Liquid Fertilizer Bander	Pump Upgrade	Nutrient Management Equipment	Water Trough
Seed Tender	GPS System	Diesel/Electric Conversion	Conservation Tillage Equipment	Water Piping
True No-till Planter	Fertigation System	Electrical Conductivity Mapping		Cross Fencing
Row Cleaners	Nurse Tank	Weather Station		No-Till Drill
GPS System	Precision Soil Sampling	End-gun Shut Off		Variable Rate Sprayer
Ripper Roller	Weather Station	Variable Frequency Drives		Variable Rate Spreader
Other Special Projects	Bulk Storage/Handling Equipment	Remote Control Technology		GPS System
	In-row Application System	GPS System		Precision Soil Sampling
	Other Special Projects	Soil Moisture Sensors		Portable Shade
		Flow Meters		Pasture Drag
		Automation Technology		Pasture Aerator/Renovator
		Other Special Projects		Other Special Projects

- 1) Prior to purchases or implementation, an application must be submitted to the contacts below and a contract must be executed to be eligible for reimbursement.
- 2) All projects listed have been previously approved within the Jackson Blue Spring BMAP area.
- 3) Additional program information may be found at: <https://www.nfwwater.com/Water-Resources/Agriculture>.
