

Rogers Tract – 2008 Monitoring
CORPS Permit No. 200003385 (IP-TK)

Northwest Florida Water Management District (NFWFMD) staff conducted a site visit and photo-monitoring December 3, 2008 for mitigation associated with CORPS Permit No. 200003385 (IP-TK). To comply with Special Condition #1 of the permit, the NFWFMD in 2006 purchased the 29.71-acre Rogers Tract on the Backwater River for perpetual preservation and management in a natural state. During the 2008 inspection no nuisance or exotic species, trash dumping or other disturbances were noted. Ecologically, the site appears healthy with abundant obligate, facultative-wet, and facultative vegetation. Minor areas impacted in 2004 by Hurricane Ivan are recovering.
